Regarding editing on this report

- This report is compiled referring to "Environmental report guideline" edited by Ministry of Environment.
- Activity items and data contained in this report primarily indicate results for the entire corporation (plants, factories and laboratories) for fiscal 2000 (April 1, 2000 to March 31, 2001), along with some activities of affiliates, some activities from past years and some activities from fiscal 2001.
- Next issue will be published in September 2002.
