

Environmental communication

Social contribution activities

Regarding local contribution activities, we consider local society contribution as an action guideline in Kubota global environmental charter. We are tackling the exchange with the local society, cleaning and voluntary activities in our each plant.

Shiga plant (Lake Biwa cleaning campaign)

Shiga plant (a summer festival)

Kashima plant (a welfare get-together in the town of Hasaki)

Sakai plant (cleaning in Hamadera Park)

Sakai plant (cleaning in its neighborhood)

Sakai plant (visiting a home)

Keiyo plant (cleaning in Sanbanse in 2002)

Keiyo plant (hiking with children in a home by bus)

Tsukuba plant (voluntary water supply service in Tsukuba marathon)

Topics (Shiga plant)

Donations of traffic safety signs

We have been donating our hand-made traffic safety signs (to prevent children from suddenly rushing out in front of cars) to the elementary schools in the seven school area in the town of Kosai, Koga-gun every year in order to prevent traffic accident. (We made fifty signs in fiscal 2002.)
