

Profile

More than a century since its founding, Kubota Corporation and subsidiaries (collectively “the Company”) have continued to help improve people’s quality of life, by offering products and services—including farm equipment, pipes for water supply and sewage systems, environmental control plants, industrial castings, and building materials. The Company has its management principle that the Company contributes to the development of society and the preservation of the earth’s environment through its products, technology, and services that provide the foundation for society and for affluent lifestyles. While adhering to this management principle, the Company is implementing management policies that are focused on prioritizing the allocation of its resources, emphasizing agility in its operations, and strengthening consolidated operations. Through these measures, the Company aims to improve its adaptability to respond with flexibility to the changing times, resulting in a high enterprise value.

Cautionary Statements with Respect to Forward-Looking Statements

This document may contain forward-looking statements that are based on management’s expectations, estimates, projections, and assumptions. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation: general economic conditions in the Company’s markets, particularly government agricultural policies, levels of capital expenditures, both in public and private sectors, foreign currency exchange rates, continued competitive pricing pressures in the marketplace, as well as the Company’s ability to continue to gain acceptance of its products.
